

Memorandum of Intent in Biomedicine

WHEREAS San Antonio and Jerusalem both have strong biomedical sectors and initiatives to promote their growth and visibility; and,

WHEREAS the industry sectors in both regions have common areas of expertise in biomedicine and a desire to facilitate collaboration for mutual benefit; and,

WHEREAS both BioMed SA and BioJerusalem agree to work together over the next two years to:

- Identify companies, research institutions, and academic programs with complementary strengths and interests
- Facilitate the introduction, interaction, and relationship-building amongst these companies, institutions and programs
- Foster the development of collaborative projects, programs, and educational exchanges for the economic benefit of both regions

We, the undersigned have read and agree with this MOI.
