Notes:

1. Employee data were provided in class ranges for employer point locations. The median value of each class range was assigned to each employer point.
2. In the simple density calculation, points that fall within the 2378.92' search radius of a 100' x 100' grid cell, are summed, then divided by the search area (1 Square Mile area) to get each cell's density value.
3. This data does not include military personnel.
