SASpeakUp FY2023 Budget Survey Outreach

The City of San Antonio implemented a widespread effort to gather input from residents regarding their budgetary priorities for the upcoming 2023 fiscal year. The survey was made available in English and Spanish from June 4, 2022 to July 8, 2022. The survey was focused on the trial budget and asked residents to rank their top five City priorities, lowest five City priorities and included one open-ended question. 11,289 surveys were received. City Council Offices also hosted town hall meetings to gather input on the survey and provide residents with information about the Trial Budget.

Resident survey participation was solicited through numerous channels, including paid digital, radio and television advertising in both English and Spanish.

Grassroots outreach included 250 yard signs at parks, libraries, Animal Care Services adoption center, senior centers and all 10 council district field offices.
