

# Project Dashboards Help Guide

## SUMMARY

Welcome to the City of San Antonio's Project Dashboards for the 2017 and 2022 bond, current 5-year maintenance program and capital infrastructure projects. These databases show the statuses of these programs and connect the public to project-specific web pages consisting of the latest construction updates, meeting documents, and other related information.

These five dashboards are updated monthly and designed to dynamically present the overall status of each respective program and provide access to a searchable project map.

## LANDING PAGE

The [Road to Progress](#) website provides access to a variety of tools to help the public navigate its construction projects. Users may access the dashboard links by clicking on the **Find a Project or Map** icon, or click under Menu on [Project Dashboards](#).

The screenshot shows the 'Road to Progress' website landing page. A red arrow points to the 'Project Dashboards' link in the navigation menu. Another red arrow points to a map of San Antonio filled with project location pins. A third red arrow points to the 'Find a Project' button at the bottom of the page.

# Project Dashboards Help Guide

## DASHBOARD

Users may access the dashboards by clicking on the teal-colored program links on the Project Dashboards web page.

## OVERVIEW (Navigation & Features)

After clicking on the dashboard link, users will see the Overview page. At the top of the screen is the date in which the data was last updated and provides links to the **Landing Page** (Road to Progress website), **Map** (map of program projects), and **Help**.

**Filtering** - On the left-side of the screen, users can **Filter Data** by council district and bond/fiscal year.

- The Multiple Districts category represents those projects whose project limits cross multiple council districts.

# Project Dashboards Help Guide

**Pie Charts** - For those dashboards with pie charts, users can filter data by clicking on a pie chart category and the dashboard screen will dynamically change the data reflected on the screen.

**Refresh Screen** – Users can refresh/reset the screen by clicking on the (1) top left or (2) bottom right blue reset button.

**Project List** – As data is filtered, users will see a list of corresponding projects on the right. Clicking on “Click for more info” will take users to a project-specific web page.

**Bond Program Overview**
