I, _____, a Professional Engineer duly licensed to practice in the State of Texas do hereby state the following:

Private: The detention system associated with the referenced project appears to have been constructed in general conformance with the accepted Storm Water Management Plan (SWMP) and construction documents on file with the City of San Antonio, Public Works Department (PWD). This acknowledgment is based on visual post-construction observation and includes the components listed below.

Public: The detention system associated with the referenced project has been constructed in general conformance with the accepted Storm Water Management Plan (SWMP) and construction documents on file with the City of San Antonio, Public Works Department (PWD). This acknowledgment includes verification of the components listed below.

For both private and public facilities, check all boxes below that apply .

1. Location, layout, and approximate size (for private facilities)
2. Location, layout, dimensions, and storage capacity/volume (for public facilities)
3. Outfall size and configuration
4. Established vegetation (min. 85%) and/or best management practices (BMPs) at detention system inlets and outlets.*

Types of BMP: Silt Fence Hay Bales Rock Berm Other: _____

**Best Management Practices (BMPs) are in place to deter erosion and protect the integrity of the detention system and the functionality of the outfall until vegetation is fully established.*

5. Auxiliary and/or emergency spillway (if applicable)
6. Restrictor plate for phased construction (if applicable)
7. Other (if applicable): _____
